NHA is an approach to life that creates a shift in how we relate to the problems that have been causing us challenges.

Nurtured Heart Approach REFRESHER!

Learning a new skill takes time and we all go back to old habits when stress hits. This refresher is designed to re-ignite your power of positivity and reassure you that the Nurtured Heart Approach gives you all the power and ability you need to face the challenges in your life. We will review the main ideas of the approach while we work through your individual challenges and celebrate what created the triumphs in your lives. In the end it is all about Love and Community and we are better together. Please come prepared to share your challenges, ask hard questions and continue to grow in the skills needed to create success in all areas of your life.

Joe Clem is certified in NHA and has been working with the approach for over 14-years. He maintains a private practice in Marriage and Family Therapy, is a Board Certified Behavior Analyst and is an expert in the emotional and behavioral aspects families face.

Online Refresher Workshop

*For those that previously attended the 4-week series
