

My Parents Work at Home

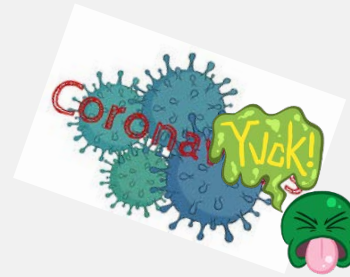

A Social Skills Story by Ms. Debbie

PARENT
NETWORK
OF WESTERN NEW YORK

Coronavirus is making a lot of people sick.

My parents are working at home because their workplace is closed.

I do school work at home because my school is closed.

Many people do work and school at home to stay safe and healthy during coronavirus.

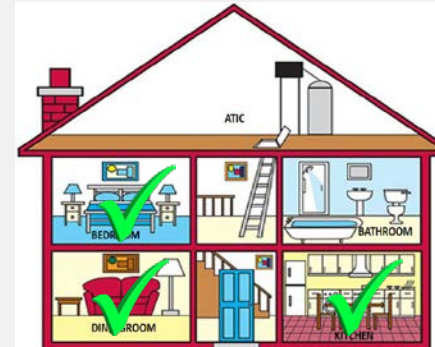

My parents work from home on specific days and times.

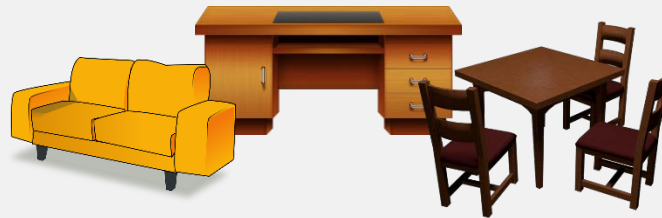

My parents will tell me when they are working.

My parents may work in the kitchen, living room, dining room, or bedroom.

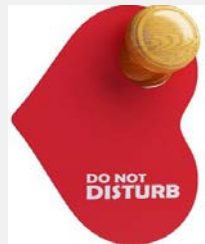

My parents may work at a table, a desk, or a couch.

It is important that I follow the rules and show respect to my parent's when they are working.

I will show respect by
using a quiet voice,
keeping myself busy,
following directions, and
not disturbing or interrupting.

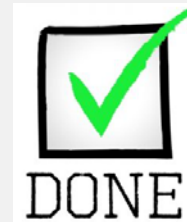

It is important that I respect my parent's
time and space when they are working.

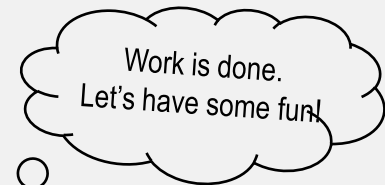

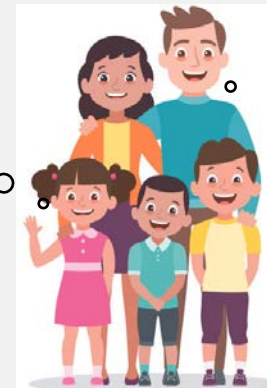

Showing respect is helpful to my parents when they are working.

My parents can get their work done on time when I follow the rules.

When my parents are done with work, we can do family things.

I like to play games with my family.

My friend likes to ride bikes with her family.

My neighbor likes to play sports with his family.

My parents workplace is closed.

My parents are working at home.

I will follow the rules and show respect when my parents are doing their work.

It is important for my parents to work at home so that everyone can stay safe and healthy during coronavirus.
